Store tightly in a cool, dry place. Keep out of reach of children

990 grams (2.2 lbs.) per bottle.

Recommended Dosage: 2 scoops per day. More may be taken as directed by your healthcare professional.

Directions: Add 1 level scoop of nutrient powder to 1 cup (8 ounces) of beverage of your choice (water, 100% fruit juice, milk, soy milk, or rice milk). For best results, mix using an electric blender. Alternatively, you may blend with ice cubes and/or fruit as desired. Drink immediately.

Product Applications:

NEED is designed to help everyone meet the challenges of poor nutrition due to physiological or metabolic imbalances. It is also an ideal complement for anyone who simply has a very active lifestyle and wants to ensure that their nutritional needs are being met. Furthermore, in any condition in which large meals might stress digestive function, it can be taken with or between meals to provide nutritional as well as digestive support.

Weight Loss - As a meal replacement, NEED complements a balanced low calorie diet and exercise plan to assist you to lose weight gradually and keep it off. Prepared with an appropriate beverage, NEED can provide the right balance of carbohydrates, protein, and fat as well as provide 19 vitamins, 13 minerals, and 17 enzymes in a delicious low calorie drink or smoothie. For even better weight loss results, combine NEED with BalanceZyme Plus, an enzyme-herb support formula that can help balance blood sugars and curb cravings.

“Nutritional stress” due to an active lifestyle - For those families with busy lifestyles who are concerned about meeting nutritional needs, NEED is a quick, simple, tasty drink that can fill the nutrition gap and reduce “nutrition stress.” For families on the move, it is the best choice for breakfast “to go,” or even try it for an afternoon snack. NEED is perfect for all ages.

Medical procedure support - NEED is a perfect supplement to promote healing by supplying a concentrated nutrient source with a powerful enzyme delivery system.

Patients undergoing chemotherapy often experience a poor appetite. They are encouraged to eat a balanced healthy diet that can include NEED as a supplement to bolster calorie and nutrient intake. Additionally, the digestive enzymes have been shown clinically to reduce nausea and can promote a healthy immune system.

For those whose tolerance for food intake is temporarily altered by medical procedures such as oral or gastric surgery and are temporarily not allowed solid foods, NEED can be taken throughout the day to provide essential nutrients and enzymes to promote faster healing while maintaining a strong immune system.

Component Benefits:

Vitamins, Minerals and Antioxidants - This formula contains 100% of the RDA for the 13 essential water and fat soluble vitamins and is an excellent source of minerals and antioxidants.

Enzymes - The TZyme™ enzymatic blend of pH balanced and GI tract stable and functional enzymes is what makes this drink unique. The potent enzyme delivery system helps digestion, absorption, and overall systemic balance. Additionally, it helps protein synthesis, controls inflammatory processes, modulates immune reactions, and improves blood circulation.

Protein - The base protein powder in this product is produced from hydrolyzed whey protein that offers a superior biological value (amino acid profile). The importance of protein supplementation is critical for anyone who desires to maintain muscle mass or needs tissue repair. Additionally, whey protein is gluten free, contains very low lactose, and is well tolerated.
