

# LypoZyme

LypoZyme contains more Lipase than any other Transformation enzyme formulation.

## LYPOZYME - FOR THE HEALTH OF YOUR CARDIOVASCULAR SYSTEM AND FOR CONTROLLING OBESITY!

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Enzyme proprietary blend	208 mg	
Lipase	2,500 LU	*
Amylase	5,000 DU	*
Protease	20,000 HUT	*
*Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

60 capsules per bottle. No fillers.

### Recommended Usage:

**Digestion:** Take one capsule with every meal. Clinical data shows that taking LYPOZYME with meals in combination with DIGESTZYME not only improves digestion, but also increases the body's ability to utilize important fatty acids and improves the HDL ratio in the blood.

**Cholesterol:** 1 or more capsules with each meal for the reduction of cholesterol.

**Obesity:** 3 capsules of BALANCEZYME PLUS 1/2 hour before each meal and then 3 capsules of LypoZyme with meals.

### Indications (uses):

- Lowers cholesterol
- Provides feeling of satiety
- Improves fat digestion
- Reduces fat
- Lowers triglycerides
- Balances fatty acids

LYPOZYME was formulated to assist the person who has concerns that may range from heart problems and high blood pressure to plaque buildup in the arteries, obesity, and indigestion. LypoZyme aids in the proper digestions of fats, carbohydrates, and proteins. This formulation contains the highest amount of lipase found in any TransFormation product.

Combining LypoZyme and BalanceZyme Plus with proper nutritional concerns and adequate exercise will assist with weight control.

Research has shown that many people over the age of 45 are either diabetic or borderline diabetic. LypoZyme that is used together with BalanceZyme Plus will act as a preventative for anyone prone to developing diabetes.

### In answer to obesity concerns:

The government defines obesity as being 20 pounds over a person's recommended weight. Research has shown that people who are obese are low in the enzyme lipase. The high amount of lipase in our LypoZyme formulation provides the body with a feeling of satiety which further controls appetite, lowers cholesterol levels, lowers triglyceride levels, and serves in the balancing of fatty acids in the system.
